### Successes

Helping clients grow their businesses through technology

- Perform server and workstation deployments and support for fast-paced \$18M/year electrical contractor. Deploy new MS Windows 2012 cloud server running mission-critical SAGE 100 as a published app in IIS with AES 256 bit SSL. Deploy new onsite MS Windows 2012 server. Migrate production data including Act! and QuoteWerks, Rebuild DNS, WINS, Active Directory and Remote Access. Create SonicWALL VPN connections from corporate office to remote offices. Support all seven national offices and 125 MS Exchange users.
- Perform server and workstation deployments and support for highly-visible \$5M/year beauty salon chain. Deploy new corporate server and 27 workstations. Support mission-critical Milano POS system, X-Charge merchant solutions and SAGE Business Works. Rebuild DNS, WINS, Active Directory and Remote Access. Support all ten sites.
- Build Storage Area Networks (SANs) for regional VAR. One SAN provided RAID10 storage for all Discovery Channel Stores' retail sites. Another SAN provided RAID10 storage for every 6' x 6' area of Sacramento County. Write documentation on building SANs and trained coworkers.
- Build 48 web servers for \$365M/year financial institution. Support Development, Test and Production environments. Support in-house developers – help them refine apps and pass multiple phases of QA testing in shared website environments.
- Provide server and workstation deployments and support for a politically charged \$3M/year golf course association. Deploy replacement MS Windows Server and 28 workstations. Migrate course management and POS functions to IBS. Rebuild DNS, WINS, Active Directory and Remote Access. Support all pro shop, maintenance, food service and administrative users.
